ISSCC 2017's Highlights

Objectives

The 8th International Solid State Chemistry Conference (8th ISSCC-2017) is a traditional forum of the Tunisian Chemical Society for presentation and discussion of the most recent advancements in all the fields of solid state Chemistry. The event is an opportunity to students, researchers and industry to present, discuss, exchange ideas, methods and results.

Topics

1. Preparation and synthesis a new inorganic solids
2. Advances in characterization of solid-state materials properties
3. Nanomaterials and nanocomposites
4. Materials for environmental protection
5. Advanced glasses, ceramics and polymeric materials
6. Metal and alloy materials

Program

The program of **ISSCC2017** includes:

- plenary lectures (40 minutes)
- invited lectures (30 minutes)
- oral communications (15 minutes) and posters
- an exhibition of scientific equipment

A booklet containing all the conference abstracts and papers will be distributed to participants. Authors are required to provide a summary of an **A5 page** in MS-Word format according to the following instructions:

- Superior margin of 2.5 cm, 2.2 cm margins on each side and a bottom margin of 1.5 cm. A template model is available for download in **ISSCC2017 website**.
- Font typeface for the whole abstract: Times New Roman
- Title in uppercase (10, centered, bold, spacing 1)
- Authors' names (9, centered, spacing 1) with presenting author's name underlined
- Authors' affiliation (8, centered, italic, spacing 1)
- Text (9, justified, spacing 1).

Posters Presentation

Posters should be 1.20 m high and 0.90 m wide. Abstracts of posters will be numbered and listed in the final program. Different sessions will be held for poster presentations. Authors are requested to be next to their posters during the official poster sessions.
